

QAD ADAPTIVE EXTENDED PROFILE

OVERVIEW

QAD Adaptive is the intelligent, cloud-based solution purpose-built for mid-to-large global manufacturers, driving the strategic shift from a System of Record to a System of Action.

It is supercharged with Champion AI, an agentic intelligence platform uniquely optimized for manufacturing to eliminate mundane tasks and deliver measurable outcomes.

Champion AI features specialized agents for deep business optimizations like Inventory Optimization and Costing Analysis, while powering Champion Pace implementation focused on predictable outcomes and delivering rapid time to value in weeks and months—not years.

The platform offers a modern Full Web UI for daily operational flows (Adaptive UX), ensuring agility via the QAD Integration Platform and supports core capabilities, including embedded Warehouse Management and enhanced Production Scheduling.
