

DTR ERP

EXTENDED PROFILE

OVERVIEW

DTR ERP is specifically designed for companies in the plastics and polymer industry providing a combination of discrete and process manufacturing requirements, including injection molders, extruders, film and bag processors, blow molders, thermoformers, and compounders.

Installed on premises or delivered directly using web based modules DTR ERP provides a range of functionality. DTR ERP can be integrated with other project management, and database, software and is available in multi-currency, multi-language and suits companies with multinational or multi-site requirements.

Other Aptean products can also be bolted on to DTR ERP providing enhanced CRM, financial tools, reporting and dashboards plus ecommerce enhancements.
