

ONRAMP SOLUTIONS ERP EXTENDED PROFILE

OVERVIEW

Onramp Solutions efforts began as an internal project of Mancor Industries (6 Plants, 1000 people) when they identified the need for a more cohesive ERP system to manage the complexity of multiple plants, multiple products, multiple customers and multiple functions. Mancor needed a better solution, and knew that they had the in house talent and the knowledge to build it from scratch.

Onramp Solutions have developed a complete Enterprise Resource Planning (ERP) system that delivers functionality to all business units. They have the advantage of knowing the manufacturing business extremely well, and use this insight to produce the right solutions.

SOFTWARE SPECIFICATION
