

ACCESS COINS ERP EXTENDED PROFILE

OVERVIEW

Access Coins ERP is a purpose-built construction cloud ERP designed to bring key project, financial, and operational data into a single, unified platform.

Coins supports the entire lifecycle of construction activities, from planning and execution to accounting and reporting. Designed for both small contractors and large civil engineering firms, it helps teams stay aligned while providing managers with clear, real-time insights into performance and profitability.

COINS ACQUISITION

In December 2022, The Access Group completed its acquisition of COINS (formerly Construction Industry Solutions) to accelerate its global ERP growth in the construction sector.

COINS brought over 40 years of industry-focused software experience and more than 100,000 users worldwide into the Access portfolio, creating deeper end-to-end capabilities across project controls, finance, and field operations.

KEY FEATURES

- **Integrated Project Controls:** Track budgets, commitments, and variations in real time.
- **Financial management:** Handle general ledger, accounts payable/receivable, and cash flow forecasting within the same system.
- **Procurement & supply chain:** Automate purchase orders, supplier evaluations, and inventory levels to reduce delays on site.
- **Payroll & HR:** Process payroll, manage certifications, and monitor workforce allocation without switching between tools.
- **Mobile & cloud access:** Field staff update project progress or materials usage from tablet or phone, tying directly back to your central Coins ERP database.
- **Reporting & dashboards:** Choose from prebuilt reports or configure your own dashboards to focus on the metrics that matter for each role.
- **Regulatory compliance:** Built-in support for local tax rules and international accounting standards helps teams stay audit-ready

SOFTWARE SCREENSHOTS

The screenshot displays the COINS software interface, which is a comprehensive system for managing construction projects and financial data. The interface is divided into several key sections:

- Header:** Includes a "Menu Search" bar, navigation icons, and user information for Alex Hall (Pre-Sales Consultant).
- Left Sidebar:** A "Menu Search" bar and a list of navigation options including Home, Bill of Materials, Bonds & Guarantees, Business Planning & Forecasting, Cash Book, Cash Profiles, Central Repository, and various project management tools.
- Main Dashboard:** A collection of modules organized into sections:
 - Purchase & Subcontract:** Includes modules for Companies, Subcontractor Maintenance, Suppliers, Insurance / Schemes, CIS Verification, Input Certificates, Certificates, Select/Deselect Certificates (Batch), Select/Deselect Certificates (Manual), Payment Batches, and Print Cheques.
 - Enter Invoices:** A module for managing invoices, showing a summary of My Unposted (1), All Unposted (5), and Posted Today (0) invoices.
 - Overdue Invoices:** A summary showing an overdue amount of 21,478,389.
 - Overdue Invoices (Batch):** A summary showing an overdue amount of 9.61M.
 - Suppliers:** A module for managing suppliers.
 - Invoices:** A module for managing invoices.
 - Companies:** A module for managing company information.
 - Invoice batches:** A module for managing invoice batches.
 - Projects:** A module for managing project information.
 - Users:** A module for managing the user system.
 - Prob Invs:** A module for managing probable invoices.
 - Aged Creditors:** A module for managing aged creditors.
 - Sales:** A module for managing sales, including Applications/Certificates, Cash Entry, Invoices, Projects, CM, Small Works, and Print Invoices.
